	Student Name:	Roll Number:
	Teaching Assistant: Guramrit Singh	

Lab 1: Basic Unix Commands

Instructions for the Lab:

- The assignment is individual. Discussion is encouraged, but not recommended.
- The lab is for 3 hours and no extra time will be given (unless everyone finds the lab hard).
- These labs are graded, so write your code properly.
- Do not use AI at any cost.

1. This activity is to make you familiar with the basic Unix commands.

Go through and try out (via the command line) the commands listed in the other text file (`commands.txt`) present in the lab directory.
